

Berks County Genealogical Society - Family Group Sheet

A volunteer of BCGS will pull Family Group Sheets of the surname you request, from our file, and mail them to address provided. Our source for these sheets includes a vertical file drawer of member submitted sheets, **AND** family sheet print outs from our Berks Cousins database. The surnames we have can be found on our webpage at: <http://www.berksgenes.org/groupsheet-a-c.html>

NOTE: This is a **Look Up service**, not research. We will not be spending hours to find your surname in our vast volumes of books. We will check only the Family Group sheet file and the Berks Cousins database on our computer.

You will get at least 1 page, and that page may be as barren as containing a spouse with your selected surname. On the other extreme you may select a surname for which we have hundreds of pages. (Such as Fisher and Miller). We will return no more than 4 pages, (may sneak in a few more). We will ask for more money to cover copying costs for large orders. We will check all spelling variants of the surname you request, at least all that we can think of. Please select **ONLY** a surname from the list provided above.

A minimum donation to BCGS of **\$8.00** is requested for this service. One additional surname may be requested at the same time for **\$5.00** more. Please make checks payable to BCGS.

Contact our Ways & Means Chairman at: marketing@berksgenes.org

Feel free to narrow your requested FGS Look Up by specifying a range of years or location; although if we have little, we send what we have, regardless.
